

BOLD CONTRAST

Geranium x pratense 'Black 'n White'

Unique color combination with white, silver-veined flowers set off against near-black foliage.

The low-growing, mounding clumps of deeply divided dark purple leaves sit on reddish-brown stems which add to the color depth.

Variety Features:

Bloom time: May-June

Height: 14 in. (35cm)

Spread: 18 in. (45cm)

Exposure: sun, part shade

Fragrant foliage; attracts bees

USDA Hardiness Zone 5-8,

RHS -28°C/-20°F
